BEST RECORD, BEST 'D' &amp; 'O' CLUB

A little less than three months after the Phantoms switched venues and became involved with Lazerskate Sports Plex in Cedar Springs, the team is able to announce a very successful regular season and one that will go down as one of the best in Phantom Franchise History. During the 10-game season, the Phantoms registered a Lazerskate Best 9-1 record. Those nine wins are only victory more than the next closest pair of teams (Team America and Sawbones) with eight. In the Phantom's own Silver Division, the team excelled six points (3 Victories) more than their closest rivals Rouge River with twelve. The Phantoms complete the regular season having won nine of the team's last nine games and posting a magnificent winning percentage of .900. The Yellow Shirts managed to tie for the Lazerskate Scoring Title with Team America with 75 goals scored on the season. Those 75 Red Lighters are one goal superior than the team's Silver rival Rouge River. In the Phantom History Books, this season will go down as the sixth highest scoring team during regular season action. However, it is important to note that in three of those top six scoring seasons, there was an 11-game regular season not a 10-game season. On the Defensive side, the numbers are also very impressive. The teams captured the Best Defensive Title at Lazerskate Sports Plex this season having surrendered only 26 goals. That mark is the second best defensive unit on record. Only the Summer 2003 season featured a Phantom club suffer fewer goals the second best defensive unit on record. Only the Summer 2003 season featured a Phantom club suffer fewer goals scored against (19). Overall, an excellent showing for this club and a very nice introduction to our new home of Lazerskate Sports Plex.

**LAZERSKATE PLAY-OFF FORMAT**

not perfect, but no solution truly is with 9 Bronze Teams and 3 Silver Teams. Basically the plan was this: Put all 12 teams (silver and bronze) into a big pool, and seed them based on regular season points. These seed numbers would stay the same throughout the playoffs. The first week has #1 vs #12, #2 vs #11, and so on. The second and third weeks will then (silver and bronze) into a big pool, and seed them based on regular season points. These seed numbers would stay the same throughout the playoffs. The first week has #1 vs #12, #2 vs #11, and so on. The second and third weeks will then be broken into winners and losers brackets, the 6 winners from week #1 play each other for week #2, and the 6 losers play would play for the Bronze championship.
